ACCREDITATION MODULE

Accreditation Automation

Accreditation Module provides class-leading analytics for Higher Education institutions leading to end-to-end automation for NBA.

- **Strategic Planning**
- **Automated Reports**
- **Real-Time Dashboard**
- **Integrated Solution**

Institute & Department Mission-Vision

The Vision of the institute and department should be futuristic and the Mission helps to achieve.

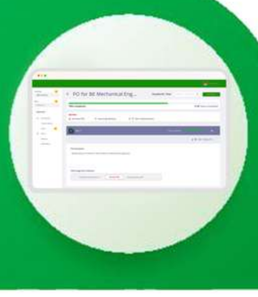

Objectives - PEO, PO, PSO Management

Seamlessly develop the PEOs, POs & PSOs of the Program & integrate the Objectives with the Department Missions

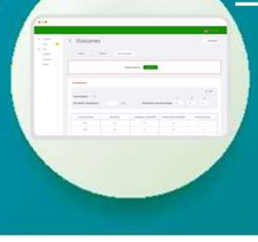

CO - PO, PSO Mapping

Manage Course Outcomes and AutoMap them with POs & PSOs. Set up complete Automation Structure

Automated Program Attainments

Set up Competence, Threshold & Weightages for Automated Attainment

Bloom's Taxonomy

Manage and Identify the growth in understanding as per the standards of Bloom's Taxonomy

Automated Teaching Learning Reports

Segregate Indirect Assessment and Direct Assessment based on weightages. Automated Report is generated and can be downloaded

FINANCIAL MANAGEMENT SYSTEM

BANK TRANSACTIONS

The Bank Transactions module facilitates the management of financial transactions, including deposits, withdrawals, and transfers, between educational institutions and banks.

CASH TRANSACTIONS

Schools, colleges, institutes, and universities may more effectively manage cash-related financial transactions by using our Cash Transactions module to handle petty cash transactions, payments, and receipts.

JOURNAL VOUCHER

Schools, colleges, institutions, and universities can record financial transactions like depreciation, adjustments, and accruals—which don't require cash or a bank account—with our Journal Voucher module.

ACCOUNTS REPORT FOR SCHOOLS, COLLEGES AND INSTITUTES

Day Book

Schools, colleges, institutes, and universities can record daily financial transactions, such as payments and receipts, and categorize them based on their types with the aid of our Day Book module.

Journal Book

Adjustments, depreciation, and accruals are just a few of the financial transactions that schools, colleges, institutes, and universities can record with the aid of our Journal Book module.

Bank Book

Admin staff at schools, colleges, institutes, and universities have the ability to maintain track of all bank-related transactions, including deposits, withdrawals, and transfers, with our Bank Book module.

Cash Book

The administration teams of schools, colleges, institutes, and universities can keep track of all cash-related transactions, such as petty cash, receipts, and payments, with our Cash Book.

General Ledger

Our General Ledger module helps keep track of account balances, transactions, and adjustments for schools, colleges, and other institutions by keeping an exhaustive record of all financial transactions.

Trial Balance

By comparing the total debits and total credits in our Trial Balance module, administrators at schools, institutes, universities, and colleges can look for mistakes in the accounting system.

Balance Sheet

Our balance sheet module provides the finance department team with a snapshot of a school, college, institute, or university's assets, liabilities, and equity at a particular point in time.

Profit And Loss

Our Profit and Loss module gives administrative staff a comprehensive overview of all earnings, outlays, profits, and losses the school, college, institute, and university have experienced over a given time frame.

Bank Reconciliation

Ensuring that the financial records of the institution are correct and current requires the Bank Reconciliation module to assist in resolving discrepancies between the bank statement and the records.

Fleet Management System

Comprehensive solution that aims to streamline the transportation operations of educational institutions. It is designed to effectively manage the fleet of vehicles used for various purposes such as student transportation, faculty commute, field trips, and other official purposes

Features of the Fleet Management System:

- Real-Time GPS Tracking
- Automated Scheduling and Routing
- Driver Education and Assessment
- Real-Time Reporting and Analytics
- Customizable Alerts and Notifications
- Compliance and Safety

Fleet management prioritize safety, efficiency, and cost-effectiveness in managing transportation services

Hostel Management System

Hostel management is crucial in providing a safe and comfortable living space for students, allowing them to focus on their studies and personal growth. It also plays a vital role in creating a sense of community among students, promoting social interactions and cultural exchange

Responsibilitiets of Hostel Management

Hostel management is an essential aspect of providing a holistic and enriching educational experience for students

PTM Management System

Parent-Teacher Meeting platform help in Bridging the Gap Between Home and School

Creates more collaborative and transparent relationship between parents and teachers. By providing a platform for effective communication and engagement, this system ensures that everyone works together to achieve a common goal: **Student Success.**

Features

01 Understanding the Student's Academic Progress

02 Addressing Behavioural or Social Concerns

03 Recognition and Appreciation

04 Encouraging Parental Involvement

05 Creating a Support Network

06 Creating an Action Plan

Benefits

1 Time-Saving

Parents and teachers can easily schedule virtual meetings through Parent Teacher Meeting (PTM) software, eliminating the need for physical visits to the school, college, institute, or university. This lessens the inconvenience of commuting and saves time

2 Improved Communication

Parents and educators at the institutions have a great chance to talk about students' progress and address issues with the help of the virtual platform. More understanding of one another's viewpoints and improved communication result from this

3 Increased Attendance

When compared to in-person meetings, virtual parent-teacher meetings (PTM) typically have higher attendance rates. This is due to the fact that parents do not have travel restrictions and can visit schools, colleges, institutes, and university students from any location

4 Maintaining Records

Teachers and parents at schools, colleges, institutes, and universities can access the software's record of all virtual meetings at a later time. This guarantees communication and facilitates monitoring student development

5 Affordable

Schools, colleges, institutes, and universities can save money on parent-teacher conference organizing by doing away with the need for physical space thanks to the Parent Teacher Conference Scheduling Software

Online Parents Teachers Meeting

Online Timetable

With the help of the system, parents can make online appointments with instructors at universities, colleges, and institutes, doing away with the need for manual scheduling and saving time and effort in the process

Using Video Conferences

With the system's video conferencing features, instructors, parents, and students at schools, colleges, and universities can hold virtual meetings at any time and from any location

Instantaneous Response

During the meeting, parents can receive real-time feedback from teachers at schools, colleges, institutes, and universities, which gives them a clear picture of their child's academic progress

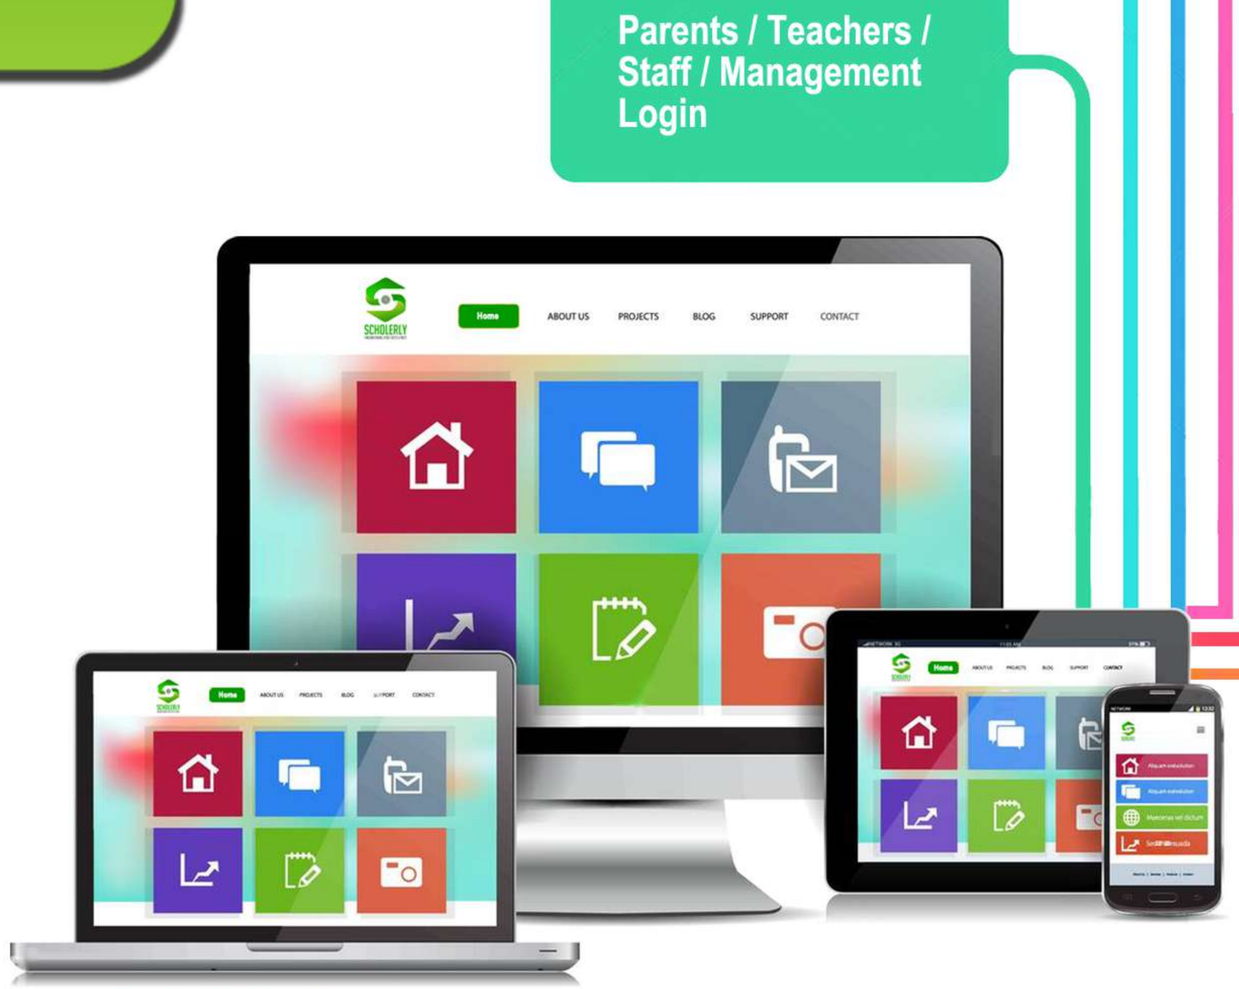

Monitoring Attendance

With the help of the system, instructors at universities, colleges, and other educational institutions can keep tabs on students' progress and attendance, identifying problem areas and implementing corrective measures
